SUBLIMATION CRYSTALS

BestSub’s sublimation crystal story: At the very beginning of our business, BestSub chose sublimation crystal as one of our key products, and gathered huge finance and R&D on this series product. As a result, sublimation crystals become one of the pillar of the company’s turnover. Although, BestSub’s catalog becomes thicker echoing its development, we keep the advantages in crystal products.

SUBLIMATION CASES

To meet different market demands, BestSub did our utmost to enrich the cover and case Brand list. Covers or cases for the complete brands collection are as follows (name in alphabetic sequence):

A LOOK-THROUGH OF BESTSUB'S COVERS AND CASES

In this column, you will be able to dig out BestSub’s full item list of covers, cases, models, package covers for the most popular smart phones, tablets, e-readers, dummy models.

With the development of BestSub’s decade long expertise in personalized covers and cases, we have a diversified cover and case portfolio, including:

2D SUBLIMATION COVERS

Basically made from plastic, rubber and TPU; For each 2D cover, we have corresponding sublimatable insert sheets, metal sheets, aluminum sheets, sparkle alu sheets, Ji-case Alu Grade A. Different types of phone case will have different inserts.

3D SUBLIMATION COVERS

3D sublimation covers, generally made from polymer, further divided by the finish technique of glossy, frosted and paint. What’s makes the 3D covers different from conventional 2D covers is the printing method and process. It requires a matchable 3D printing tool which is supposed to be used in a 3D vacuum machine. As a result, a 3D cover has a full size printing in the surface and the edge, corner and places which can not be printed with the normal 2D cover making process;

The Silhouette Portrait® is an electronic cutting machine for personal use. Like a home printer, it plugs into your PC or Mac® with a simple USB cable. However, instead of printing, it uses a small blade to cut paper, cardstock, vinyl, fabric, and other material up to 8 inches wide and 10 feet long. The machine also has the ability to register and cut printed materials and is PixScan™ compatible.
Meet Silhouette Curio DIY Machine, which comes highly recommended. Curio is more than a cutting tool. It is the only machine that can unlock stippling, etching, debossing, embossing and dual carriage features in the powerful Silhouette Studio® design software. Silhouette Curio DIY Machine is easy to use once you figure out the basics. It is the perfect machine for DIYers that love to diversify their creativity. Most importantly, it is able to do more projects than you could have imagined.

The Silhouette Mint™ is the most innovative and powerful custom stamping system on earth. The machine’s special “thermal printing” ability lets you create 3D reliefs of custom designs on Mint stamp sheets. Simply apply Mint inks to your stamp and you are ready to roll.
